LRS Staff Paging

Keep Your Staff Connected- Always

LRS UK offers very high-quality staff paging systems used throughout the UK and around the world by some of the largest (and not so large) companies in hospitality, restaurants, manufacturing, logistics, warehousing, and other business sectors.

Why You Need Them:

- **Increase Staff Performance**

Instant paging promotes faster response time and improved productivity

- **Get Instant Communication**

Send messages instantly to anyone wearing an LRS Vibe+ pager

- **Improve Customer Satisfaction**

Faster service means more satisfied customers and increased customer loyalty

TX7471 and Vibe + System

The LRS Vibe+ pager is a replacement for the 4-line alpha, with massive improvements. The AP2 Vibe+ is a full-colour backlit pager that displays scrollable text for improved readability.

Used to notify staff that they are needed and can be used in all industries where staff need to stay in communication.

Vibe+, when used with the TX7471 transmitter, can be preprogrammed with preset messages that can be selected on the transmitter to deliver to an individual or a group.

SP6

The LRS Staff Paging System is a low-cost staff paging solution for small businesses. It keeps staff informed about guest needs or tasks, allowing co-workers and management to alert one another.

The four LED lights may be programmed to light up individually or altogether to indicate that various messages are being sent to the staff. Includes your choice of up to 20 pagers. Unit supports up to 9999 pagers.

- 3 YEAR WARRANTY

SOLT Paging

SOLT Kitchen to Waiter Paging

When staff press the SOLT SB6-6PBK kitchen transmitter, staff wearing the watch pager are notified to return to deliver a food order or assist at the bar.

This communication tool is critical in hospitality because it ensures staff can communicate and improves the service provided to customers.

SOLT SB6 Kitchen Transmitter Features:

- 6 calls
- 1 indicator
- Coin battery CR2450 X2
- Dimensions: 100x60x16.5 mm
- Weight: 50g
- System can be expanded post-purchase if required
- Full 2-year warranty and UK support

SOLT Waiter Watch Pager Features:

- Colour LCD
- Easy to use
- Call data management
- Up to 5 days usage and standby
- Watch function in standby
- Improved water-resistant properties (IP-7)
- Voice alarm through speaker (beep)
- Call ID Config
- Comfy wrist strap

Keep Your Staff Connected- Always

High-quality, well-designed, reliable wireless calling systems made in Korea, with a two-year UK warranty and support if purchased directly from us here in the UK.

SOLT has developed a full range of wireless calling and paging systems for use in many business sectors. SOLT has devoted much time in research and development of the wireless calling systems and paging solutions available from this website and online shop.

SOLT PC Monitoring Receiver

The SR5-MPR receives signals from call buttons and inputs information into the computer. It logs when the call button was pressed, the button number, time spent servicing, and more. This system allows you to track how quickly staff respond to calls and analyse the data to identify areas for improvement.

CT Staff Paging

Keep Your Staff Connected- Always

Capture Technologies Text Staff Pager is a great paging solution that allows staff to be notified anytime via text. This easy-to-use pager works with LRS UK Transmitters. It is the perfect communication tool for all industries where recalling and notifying staff is essential.

Equip staff with essential tools to enhance on-site communication and productivity. The CT Staff pager is used across various industries, providing reliable and quick communication.
